

## CAPITALISING ON THE XPLORE'S EXCEPTIONALLY STABLE, SEA WORTHY, AND COMFORTABLE PLATFORM, BUT FOR ANGLING.

To compliment this straight line speed, the double concaved hull provides exceptional levels of secondary stability – ensuring the T:X gives you a comfortable and secure ride, regardless of the conditions.

Paddler comfort is just as important though. With generous legroom, unique cushioned heel pads, easy adjust footrests, a raised seating position, and an extremely comfortable seating system - A long day on the water needn't be an uncomfortable one.

With ample storage capability the T:X can take you on longer adventures too. Why not pack your camping and cooking equipment, and see where the water takes you?
